Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 15-45 are allowable over the prior art of record because the prior art of record does not teach or suggest the entire combination of elements of the dispensing system set forth wherein the dispenser and wet wipes together having a dispensing force, and the wet wipes having a tensile strength which is at least twice that of the dispensing force. The prior art of record teaches wet wipes having a tensile strength. However, none of the prior art of record teach or suggest the relationship between the dispenser and the material, i.e., the prior art does not teach what force the dispenser is applying to the material. Therefore, without knowing this force, a person of ordinary skill in the art cannot reasonably determine whether the tensile strength of the material is at least twice that of the dispensing force. As such, the prior art does not provide the necessary motivation, absent applicant's specification, for modifying the dispensing apparatus in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
